Work

Citibank - Software Developer

On contract assignment, developed the new Citi.com using Angular 6 and standard Agile Software Development ceremonies. Developed Web UI components that are consumed by millions of users every year across North America.

DFW Metroplex TX | Nov 2018 – Present

T-Mobile - Sr. UI/UX Developer

On contract assignment, created web-applications that aid organization security goals. Created an application that intakes all new repositories for security scanning. Created an application that serves as a reference to determine the security rating of a project.

Seattle WA | Aug 2018 – Nov 2018

Wells Fargo - UI/UX Developer

On contract assignment, designed and developed financial services software. Used Scaled Agile Framework to distribute workload across large groups of people. Engineered client side and server side solutions using Angular 4 and Visual Studio.

St. Louis MO | May 2018 – Aug 2018

Microsoft - UI/UX Developer

On contract assignment, designed and developed productivity tools for a stronger Microsoft. Solved cumbersome systemic problems with delightful, dependable web-apps. Worked closely with project managers to gather requirements from clients.

Redmond WA | Jun 2017 – May 2018

Education

University of Cincinnati

Achieved Bachelor of Science in Digital Design with UI Design and Web Development focus.

Cincinnati OH | Sep 2010 – May 2015

University of Cincinnati

Achieved Bachelor of Arts in English with Comparative Literature and Cultural Studies focus.

Cincinnati OH | Sep 2007 – May 2014

Ludwig Maximilian University
